A ruler, sometimes called a rule or line gauge, is a device used in geometry, technical drawing, engineering and building to rule straight lines. Engineering designers used (before the advent of CAD) devices with graduations marked on their edge called scales, when setting out or measuring length on a drawing.

Ever since my first post on making the Girls' version of the Chinese Qipao in January 2014, I have received lots of feedback and seen lots of pictures on social media of the dress. I have been thinking about making the same pattern for adults for a long time, but was hesitant to do so because the adult's version is a much more challenging dress.
