God may not play dice with the universe, but something strange is going on with the prime numbers.. Referencing Albert Einstein's famous remark that "God does not play dice with the universe", this is attributed to Erdős in "Mathematics : Homage to an Itinerant Master" by D. Mackenzie, in Science 275:759 (1997), but has also been stated to be a comment originating in a talk given by Carl ...

A metal lathe or metalworking lathe is a large class of lathes designed for precisely machining relatively hard materials. They were originally designed to machine metals; however, with the advent of plastics and other materials, and with their inherent versatility, they are used in a wide range of applications, and a broad range of materials. In machining jargon, where the larger context is ...

Normal Numbers and the typescript of On Computable Numbers. Another ingredient for Turing was his knowledge of the classical analysis of the real continuum. In 1933 his undergraduate friend David Champenowne had noticed and published a simple but new result about 'normal numbers'. These are infinite decimals in which the digits are uniformly distributed.
